Ellen Williamson Kanervo

This month’s featured member of the month is Ellen Williamson Kanervo. Ellen earned a B. A. in 1972, from Newberry College, Newberry, S.C., graduating magna cum laude (4.0 GPA), and a Ph.D. in mass communication from the University of Wisconsin-Madison in 1979. She joined the faculty of Austin Peay State University in 1977 and taught undergraduate and graduate communication courses for 30 years, serving as department chair from 1989 through 1997, and retiring as a full professor in 2007.

Ellen was named Austin Peay State University Distinguished Professor in 1993 and SEJC Outstanding Journalism Educator in the Southeast in 2007. Her research interests are eclectic: she has published articles or given papers in journalism history, political communication, and technological influences on communication.

Since 2010 Ellen has served as the executive director of the Clarksville/Montgomery County Arts and Heritage Development Council. As an outgrowth of that position, she has worked with three historians to transcribe and annotate the 1863-1890 diary of Clarksville native Nannie Haskins Williams. The diary was published by the University of Tennessee Press in March 2014.

As executive director of AHDC, Ellen oversees monthly arts workshops in conjunction with the Downtown Artists Cooperative, monthly high school art exhibits and receptions, an annual Valentine’s Afternoon with the Arts featuring work by local artists, the annual Clarksville Writers Conference, an annual awards reception for achievement in arts and heritage, a cultural calendar with work by local artists and arts events throughout the year. She serves on the city’s Public Arts Commission and Two Rivers Company Clean, Green and Safe Committee. She has worked with the county’s historical society to commemorate various Civil War Sesquicentennial events and the War of 1812 bicentennial events. She recently spearheaded work with 31 artists, 10 authors, and 2 designers to produce an art and alphabet book about the city, C Is for Clarksville on the Cumberland. With about half of its copies sold, that book has netted almost $10,000 to go toward community arts and heritage projects.

Ellen has also been instrumental in fundraising that has been beneficial to Clarksville. She received three $4,500 grants from Tennessee Arts Commission to support Clarksville Writers Conference; Received $2,250 Technical Assistance grant from Tennessee Arts Commission to help with cost of redesigning Clarksville/Montgomery County Arts and Heritage Development Council website (2009); Received $3,000 grant from Piedmont Newspaper Group to underwrite Southeast Journalism Conference (2002); Received $1,000 grant from Tennessee Press Association to underwrite Southeast Journalism Conference (2002); Co-chair, Friends of AP Playhouse (1997–2001), which raised $35,000 for theatre scholarship endowment fund through four benefit dinners. Volunteer for Austin Peay alumni phonathon and raised $4,000 for mass communication endowment fund. Director (1990), $2,500 grant from Tennessee Arts Commission for Symposium on “The Art of Reporting the Arts,” Austin Peay State University. Director (1983–84), $1,000 grant from Tennessee Committee for the Humanities, Inc. for George Orwell Conference, Austin Peay State University.

Ellen goes by the title of Dr. Kanervo and is an asset to the Historical society. We are fortunate to have her as a member; she is always willing to help with a project if she has a clear calendar. She is a busy woman. As you can tell. Kudos to Ellen.

WHAT WOULD YOU FIND IF YOU LOOKED IN THE “WINDOW INTO THE PAST” IN FEBRUARY

REMOVAL. The Chronical Office has been removed to the third story over the Store of W. H. Breyerly, where the Publisher will be pleased to see all who are in arrears, all who wish to pay in advance, and all who want work done neatly, promptly and on reasonable terms. We would remind our patrons that all printed materials have advanced in price, and so has house rent, and since the terms of the office have undergone no relative change, it must be evident that punctuality, always desirable, is more necessary than ever. The prices of a paper is a small matter, and the subscriber will always feel more comfortable when it is paid in advance.

Congress has appointed a committee, of its members, to quit their business and go and inform Buck and Brock that they are elected President and Vice President of the United States. If they are such fools as not to know the fact, they had better be kept in ignorance of it; if they do know, it is sheer flummery to be sending members of congress to tell them what they already know. All the parties will feel like fools when they meet.

"Golden Chop" is the title of the finest article of Green Tea, only rare specimens of which have hitherto been imported into this country. It is remarkable for strength and delicacy of flavor, being the first picking from the tea plant, and is now being regularly imported by the Pekin Tea Company. The lovers of good Tea will find this article at the Drug Store of Thomas & Bro.

Congress has been in session more than two months, and what has been done for the public good? One bill has been passed, making provision for an advance payment of its members; another, for the issue of United States paper money — "that's all!" The rest of the time has been spent in wrangling about Kansas, Nicaragua, the rascality of Congressmen — everything, in short, that may, perchance, benefit party, and disgrace the country, and nothing having the remotest tendency to promote the general welfare. The ruling question, in both Houses, is—which jackass shall next divide the plunder.

The City Council subscribed $5,000 to the Clarksville Gas Co. (a company incorporated by the Legislature of 1857-58, with the same power and privileges as the Nashville and Memphis Gas Companies,) and we hear that subscriptions are now being taken among our citizens, to said Company. It is estimated that $20,000 will be required to put the works in operation.

We have it from one of the City functionaries, that the Street Committee were authorized, some time ago, to have Second Street so repaired as to drain the water off into Commerce street, where there are good and ample valleys for its conveyance to the River. But as yet nothing has been done, and a pond of water is permitted to stand continually, in one of the most public streets in the place. We earnestly ask the City authorities to take some action in the matter or provide persons traveling that street with suitable water crafts.

Clarksville Weekly Chronicle 3 Feb 1860, Fri - Page 2
The fugitive slaves, on the frontiers of Canada, are kicking up a fuss, because the whites do not want their children to go to the same school with the black children. The darkies are right. — They were run off to Canada where they were told they would be equal with the whites, and they had the right to claim all that was promised them. They are in truth, better than the whites who steal, and those who receive them, as stolen goods, and ought to stand higher in public estimation.

Clarksville Weekly Chronicle, 24 Feb 1860, Fri - Page 3
Of all abominable and rude habits, that we have noticed among the youths, and young men, of our town, is that of congregating about church doors, and below the steps, on Sunday, to vent their impertinence by staring at ladies, going in, and coming out. We have noticed it at all of our churches, but particularly at the Methodist. There, every Sunday ladies, going into, or coming out of, the church, have to submit to the rude gaze of dozens, and even scores, of men and boys, and pass the gauntlet of their silent, or spoken, criticism. Such conduct, on the part of these young men is as rude and ill-mannered, in them, as it is disagreeable to the ladies. We have heard a good deal of complaint from ladies about this nuisance, and do hope that it will be voluntarily abated, and that we may not have to speak of it again.

Clarksville Weekly Chronicle, 15 Feb 1861, Fri - Page 3
The ladies have made another step towards encroachment upon man's privileges in wearing apparel. Not content with wearing the breeches, at home, they are donning the jacket, out-doors—the "Zouave jacket;" and we must confess to a liking for the fashion. To see a nice, plump little female "preparation"—the pony-built look the best—in one of the Zouave jackets and flesh-colored stockings, going through a place she thinks is muddy, is a sight worth seeing! But one of your angular, bony, "turkey-drum-stick" kind of women, have no business with the Zouave, or the flesh-color. They both hang too loose on them!

Another fashion that we do not like, is that of skirts trailing in the dust, and dragging along with them all the dirt and filth of the side-walks. It don't look pretty, and—must we say it ?—it is a filthy fashion. We don't see how ladies of cleanly proclivities can submit to it. Still another fashion, more odious still, to us, is that of covering up, and hiding with net caps, woman's chief glory—her hair. Even if a lady indulges in the excusable fraud of wearing a braid, she ought to let it be seen; but for one who is possessed of that glorious ornament, to confine it, as some do, in a flimsy cap, is an unnatural fashion. We hear that some ladies refuse to wear a bonnet through a church service, and in church, are in the rear of the pews. It is a filthy fashion. We don't see how ladies can submit to it. It is against nature, and against propriety.
